About Me

I am inspiring myself to become a one of the best software engineers in the nearest future. I am an undergraduate studying at the Sri Lanka Institute of Information technology (SLIIT), always keen in learning new skills, gathering effective knowledge and new experiences in improving self. I have completed my third year at SLIIT and looking for an associate software engineer opportunity to build up my career saving time. I believe in myself and always aiming to fine-tune interpersonal skills, self motivated, ambitious, a quick thinker and a target oriented an individual paying attention into detail.
